

Bonny Hills Community Submission

to the

Review of the 2012 Bonny Hills Reserves MasterPlan

30 April 2020

Introduction

This submission has been compiled by the Bonny Hills Progress Association on behalf of the BH Community (BH CCAT is in obedience due to COVID-19).

It is a compilation of material from several sources which include:

1. Views sought from community groups which capture their perspectives
2. Views of regular walkers through the Reserves captured at Rainbow Beach Reserve on 14 March 2020
A submission by the Camden Haven Walking for Pleasure Club and its eighty members is provided as an attached document, but these views have also been incorporated in 2 above.
3. Views provided on the Bonny Hills FaceBook page
4. Data derived from the ECWOC meetings held by Council starting in late 2017 to build a foundation for the development of the BH Community Plan. This was summarised by BHPA.
5. The Appendix to the Community Plan in which the material in 4 above was sorted into the proposed Actions, one of which was this review. This is provided as an attached document.
6. An informal audit of pathways throughout Bonny Hills [undertaken while developing the Community Plan], many of which are in, or provide links between the Reserves. This is provided as an attached document.

We trust you will find this feedback from the Bonny Hills community highly relevant input for the upcoming review.

If you need further explanation, please contact us.

Views of Community Groups

Submission from Bonny Hills Rural Fire Brigade

The brigade has had consultation amongst members and have only a couple of concerns

- 1 That there is safe access for fire vehicles to access reserve areas in case of emergency response.
- 2 Depending on the fuel loading of areas adjacent to reserves as to how many units will be deployed to that location, this will require that maintenance be maintained to locks and gates also over hanging branches from trees restricting entry.

Glenn Dunn
Captain
Bonny Hills Rural Fire brigade

Personal Submission from Glenn Dunn

I walk through all of the reserves in question every morning and would like to say the following

The reserves in general are kept mowed and tidy and no need to have concrete footpaths in the reserves, however the connecting tracks in some places are very rough and slippery in the wet, eg the track from spooneys up to the reserve at Jordan ave over the bridge.

Recently there have been damage to the grass areas at spooneys by doing donuts on the grass areas, also illegal camping and illegal campfires on the grass verge, can some barriers be put up to stop vehicle access to these grass areas.

Glenn Dunn

Bonny Hills Playgroup Mothers

We would love to put on some suggestions for each of the reserves. We will just list each of the reserves and the contributions we would like to make to each of them.

Rainbow Beach Estate Reserve:

-Exercise equipment and play park.

Rainbow Beach Reserve:

- We would like to see some exercise equipment here.
- We would particularly like to see the main children's play park improved.
- To enhance patrons seating at the beach we would love to see the Norfolk pines have some substantial box seating around them for shade (2mx2m).
- A general refreshment to the picnic tables and shading of them.
- Of real bonus would be a ground level cafe in the surf club similar to the cafe at town beach with hardwood decking and child and pram friendly catering to the local beach goers and families!
- New showers and toilets that are not cheap prefab material but speak of a bit of heart and soul similar to Scotts Head. Especially with a change room that is separate to a toilet cubicle.
- Walking path joining all reserves through to sharkies headland.

Community Hall Reserve:

- Skate park enlarged. Especially having a longer skate run at the reserve similar to Port Macquarie skate park.
- Improved plus bigger play park
- Increased shade on the seating areas

Spooney's Bay:

- linking path to continue to Bartletts Beach

Bartlett's Beach Reserve:

- Play park for varying ages embracing natural play features. Play that challenges older children
- Picnic seating areas with shade so families have another reserve to meet at and enjoy the view and a BBQ together.

Shelly Beach Reserve:

- Linking path around to Sharkies headland.

Reservoir Reserve:

- Whale watching area/tower.
- Linking to path to bush trail that commenced at Rainbow beach reserve.

Tami Hickey and Melanie Woollam

Wauchope-Bonny Hills Surf Lifesaving Club

A call to WBHSLSC members asking for contributions to be emailed to the SLSC Committee by email failed to elicit a response - somewhat surprising given what many would see as serious issues relating to the club building and surrounds - poor acoustics, inadequate parking facilities and beach erosion among them.

Hence the personal response that follows from Leanne Goggin, a SLSC Committee member, cannot be regarded as the Club's view, but is useful feedback in its own right:

Our whole Rainbow Beach Reserve needs a Back-to-Bonny's Type Theme (SURF CULTURE) A bit like Crescent Head NSW, or like Yallingup-WA.

A nice balance of some 'old school' black and white images of our proud surfing heritage with some old images of the little village of Bonny Hills mixed beautifully with the vibrant colours and images of the toilet block and current surfing/beach scenes!! But a theme to 'hold the space' all together.
Some Aboriginal signage /sea inspired sculpture/usable space ??

*Utilising some of the Grass Reserve (current overflow car park) space - as a permanent Outdoor Stage / Music Bowl Idea ...

A space for 'all weather' outdoor community events;
Carols/Outdoor Concerts/Community Presentation Day Area (Mal Club/Board Riders etc etc.)

Landscaped with ample tiered seating etc etc.

Then have a much smaller section of the grassed hill (as it is now) for a much smaller parking area /paved and marked, perhaps even a pedestrian (safe space) to cross from showers and park to parking area music bowl area???

*Have the grassed space in front of clubhouse (right hand side) as an outdoor cafe - timber deck right down to car park. Community Herb/Veg Planter Boxes alongside the timber council bollards and cafe ... this acts as a pleasant divider between car park and eatery.

*Timber Benches built around the pines down on the beach front to double as shade seating and table space (like at North Haven Beach) they have the new big timber rectangular boxes - but out in the open with no shade! Pave/cement/fake grass?? Landscape the whole area from the path to the timber decking around the tower and right over to the ramp - utilise the WHOLE area for recreation/seating/enjoyment. Incorporate fixed beach chairs here like on a promenade. A GREAT example of this is again in WA places like Rockingham's foreshore.

*Have Stainless Steel Surfboard Designed with 'Surf Etiquette' Displayed (like at Yallingup - Western Australia)

*Have Photo Images of Surf History on our Rubbish Bins (Photo Wraps like on our Busses)

*Invigorate the Kids Playground again GREAT examples for this are from Yallingup - WA) and also Cairns QLD incorporating waterplay and dividing the play areas into age appropriate spaces for all. Incorporate - a fixed Beach Volleyball area, gym equipment, a marked cricket space, large outdoor chess. more permanent shade spaces here too??

Leanne Goggin

Bonny Hills CWA response

Our concerns are for the Hall reserve and the hall itself:

- . the state of the turn in from the street, parking and erosion. Marked parking bays would help
- . the hall itself where there are issues of general maintenance -
 - o fly screen not replaced;
 - o vermin an issue;
 - o front step of main single door requires attention for safe access;
 - o electrical power requires an up grade to avoid overloading and tripping power;
 - o kitchen needs enlargement for food preparation and hosting of functions,
 - o the placement of the microwave is dangerous especially for those of short stature;
- . surrounding areas and gardens need more frequent attention.

Chrystine Bouffler
President, CWA

A conversation with Bonny Hills Walkers

Saturday 14 March, Rainbow Beach Reserve

Summary

Walkers were invited by posters distributed along the walking paths of the village, inviting them to come to a conversation about their views for inclusion in the current review of the Reserves Master Plan. The session was well-attended and generated the comments and ideas summarised below.

In addition, Camden Haven Walking for Pleasure group also contributed comments that are incorporated below.

General

- Interconnections between reserves and community amenities and points of interest are often incomplete or in poor repair and unsafe.
- Track maintenance is needed for safety and all-weather access. Attention should also be paid to overgrowing vegetation, above and to the sides.
- Paving with gravel is very acceptable if the paths are properly drained and maintained. Where roots cross the path, gravel is the only answer.
- Walking paths should be wide enough to allow families with kids to be able to cycle together in safety.
- Consideration should be given to allowing dogs to run off-leash on bush tracks.
- Signage needs improvement throughout the Reserves pathways for those unfamiliar with our walkways.
 - Bilingual signs would make the increasing number of Chinese visitors more welcome. (Bi Sheng, a relatively new resident is available to assist – bisheng1970@hotmail.com)
 - Bonny Hills Reserves pathways go through very attractive and diverse bushland. Interpretive signs would provide a valuable educational resource, as would identification of principal plant species.
 - All pathways should have names so they can be more easily identified. It wouldn't be hard for Council or BHPA to call for nominations.
- People living in close proximity to the Skyline parking area and the Lake indicated some unease about any developments there.

Skyline water reservoir parking area

- Should be returned to bushland.

Skyline to Sharkeys Beach

- The track starting at the eastern end of Skyline to Sharkeys Beach should be paved.

Grants Head to North Haven

- Maintain the track.

Honeysuckle Drive to Grants Head through Shelly Beach Reserve

- Maintain Grants Head track.

Path paralleling Honeysuckle Drive and Jordan Avenue

- There is no defined pathway after the old reservoir to the south at cliff-side, through Klumpp's Park to join the Grants Head track.

- The path from the old reservoir to the north is partially paved and needs extension past the carpark and into the northern part of Bartletts Reserve.

Bartletts Reserve to Spooneys Beach

Paths are very dangerous for all walkers and urgently need gravelling and draining.

Reflections Park to Spooneys Beach

The end of the boardwalk need to be connected to Spooneys with a well formed gravel path and drainage.

Binbilla Drive to Tennis Courts to Hall Reserve

- The lack of a path between these points is significant problem for safety and amenity.

Community Hall Reserve

- The Hall has no connection to the shopping and medical centres on Jungarra Crescent.
- There is no safe crossing on Graham St from the Hall Reserve to the Bonny Hills Store.
- There are some very nice paths through the bushland that occupies most of this reserve. They would be enhanced with interpretive signs.

Rainbow Beach Reserve to paved path behind Ingenia Caravan Park

- Access from Ingenia Caravan park to Rainbow Beach Reserve is via the eastern verge of Beach St and requires the use of the roadway when crossing Saltwater Creek. This is very unsafe for pedestrians as has been reported to Council on several occasions. The path is in poor condition on the southern side of the bridge.
- Pave the path from Ingenia entrance to the start of the paved path that ends at Kendall Crescent.

Path behind Ingenia Caravan Park to Kendall Crescent

- Connect the path to Seafront Circuit.

St Kitts Way

- At its western end, a path should connect it to Ocean Drive and then south to Beach St. This would provide an alternative for cyclists and walkers to avoid using Ocean Drive and allow a great link between Ocean Drive and Rainbow Beach.
- At its eastern end, signage is needed on Kendall Cr to indicate the start of the paths to the lake and to Rainbow Beach Reserve.

Rainbow Beach Estate (Lake) Reserve

- The lake is inaccessible to the north of the existing concrete pathway, being fenced off and sign-posted, in part: "The area beyond this fence is private property which will be dedicated to Port Macquarie Council as an open space ..." Presumably this means it may be used for this purpose.
- Extend the pathway around the entire lake.
- Install rubbish bins on the path.

Midcoast Garden Friends

The last meeting of the Midcoast Garden Friends discussed suggestions for improvements to the public area surrounding the Bonny Hills Hall.

These are our ideas:

1. Improve the access road and parking facilities.
 - a. The road surface is in urgent need of repair.
 - b. The current access is dangerous as there is poor visibility at the busy entrance onto Graham street. Cars are parked at the kerb and trucks are often unloading opposite the entrance.
 - c. The grassed area near the entrance is used frequently as overflow parking for the residents in Graham Street as parking is unavailable on one side of the street. As a result this area of the reserve is full of pot holes and is in bad repair as it was not designed for this purpose.
 - d. There are insufficient car parking spaces to meet existing needs. The Community would like the Hall to be extended so that will further increase the pressure on parking.
2. Increase the number of shade trees planted in the area especially near the basketball and netball court.

It is suggested that fire retardant species could be used. More of these species could replace those existing trees and shrubs that die closer to the Hall. The council could label these trees and shrubs and this could act as a resource to local residents wishing to plant them in their own gardens.

3. If the Hall is extended on the northern side then attention should be given to planting more shade trees for the summer in this area of the reserve.

Kind Regards,

Anne Drinan (representing Midcoast Garden Friends)

BHPA Facebook page feedback

The following comments were posted on BHPA's FaceBook page in response to an invitation to provide thoughts on our Reserves:

- Cheryl Rine – I am particularly interested in the reserve on Beach St and the area between Bonny Hills and Lake Cathie that have had NO maintenance work and are in desperate need of tidying up.
- Sue Jones – Some type of waterfront access to the Lake off Seafarers Way eg little jetty. Some covered seating in this space for all residents to enjoy.
- Helen Smith – I would certainly agree with the exercise equipment --- places at Rainbow and Bartletts not being used. There also needs some plan for replacement medium, stabilizing trees on the beach/park perimeters – please NOT pine trees

- Meredith Pisani – I agree. Tree and habitat regeneration. Tonight we saw a beautiful tiny bandicoot come out of the verge from the bush. We also have beautiful sugar gliders and birds in our area. Why does all the allotted money seem to be allocated to that shop hill area? Bonny Hills is a bigger community than just that street/park/beachfront.
- Lochlan Hughes – Proper outdoor exercise equipment, light house is a good example. All other ones are useless in the Hastings.
- Carolyn Van der Veen – is it too late to include Mary's Reserve in the considerations?
- Milanka Greenwood – Dog Park
- Sheryl Gardiner – leave them as they are
- Shannon Kelly – agree! If anything, additional native plants to regenerate the areas.

Transcribed by Roger Barlow

Compilation of outputs from PMHC ECWOC meetings

Community Questions

Graffiti - Nateaka

- Camera to manage graffiti -
- Graffiti Blasters volunteer group in the area

Water and Sewerage – Bree/ Terry Randal

- Water Quality
- Sewage capabilities
- Southern end of Bonny Hills has no water pressure if bad and getting worse
- Water Quality and sewage in Bonny Hills
- Duchess Creek contamination
- Current Water system Outdated
- Water quality in creek systems – independent testings should be done and results published
- Water Pressure
- Water quality

Future Development – Peter Cameron / Leanne

- Development – how do we protect the character?
- Things happen in Bonny Hills in an Adhoc way we need a strategic view for the future
- Goat Farm – decisions and future action required. Report to the community about what's happening
- Size of land blocks
- Development in South Bonny Hills
- Environmental Protection
- Purchase Goat Paddock and create – Car park

Quarry/ Roads/ Footpaths – Duncan / Cameron

- Gravel truck Dangers – Quarry – Noise on Ocean Drive and road in disrepair
- Pathway from the pub to the beach is required
- Lack of footpaths
- Roads
- Footpath Rodney St to Shops
- Footpath Ocean Drive a priority

Recreation and Building – Liam/ Gary

- Paragliders and Bartlett's beach – there needs to be rules about how the site works and a copy of the risk management plan shared. Shared use and the terminology needs defining
- Ugly new toilers at the beach
- Grants Beach Reserve to be kept as a Nature reserve – no development

Compliance – Tim A

- Blasting practice
- NBN – Where is it at ????????

What we love about Bonny Hills

General

- Fell in love with the whole outlook – purchased a house one hour after seeing the area
- Location
- Location
- Location

Climate and weather

- Climate
- The climate is the best in Australia if not the world
- Weather

The natural environment

- The sea and surrounding environment
- Coastal landscape
- Love the beautiful coastal landscape
- Scenic beauty
- Natural beauty
- Uniquely beautiful and varied natural environment
- Pristine environment and climate
- Trees wildlife clean air clean water
- Lots of green space
- Beauty of area
- Natural surrounds and habitat
- National Parks and mountains
- Environment
- Natural environment – trees, beaches and lack of development
- Great natural beauty
- Natural beauty
- Fresh air
- Beautiful coastline and beaches
- Native vegetation and beaches
- Beautiful environment – mountain, beach, climate
- Beaches, bushland trails/tracks
- The great beaches and green reserves
- The beach and small population and the lack of commercialism
- Beach, bush
- Beach, wildlife
- Location to the beach
- Beach, bush
- Uncrowded surf
- The beach
- The beach
- Beach
- Beach
- Beaches
- Beach-side
- Clean living and ocean
- Clean living by the ocean

- Trees and walks
- Love dog on beach.
- Freedom, environment, uncrowded
- No infrastructure
- Paradise 7 years ago
-

Lifestyle, people, community and village

- Atmosphere
- Lifestyle
- Lifestyle
- Lifestyle
- Lifestyle
- Life style for retirees
- Affordability
- People
- Friendly people
- Great and friendly people
- Small friendly community
- Friendliness of neighbours and community groups
- Friendly and progressive community
- Community minded people – friendly and welcoming
- The community in Bonny Hills is the most friendly I have seen
- Great caring community
- Relaxed feel and friendly community
- The low-key nature of the place
- Laid back community
- Community
- Community
- Community
- Small community lifestyle
- Small community and village
- Here because sense of community and community groups active
- Family circumstance – ambience
- The village lifestyle
- Village atmosphere
- Village atmosphere
- Village atmosphere
- Village atmosphere
- Village and community lifestyle
- Sea change – village appeal
- The village nature of Bonny Hills
- Village atmosphere and continuation of it
- Small village atmosphere

Access to services and other centres

- Easy access to all services
- Ease of access to amenities
- Easy access to all our needs
- Short drive to train, airport, hospital, uni/tafe, 4 lane highway to Sydney
- Proximity to Sydney without being in the busy Central Coast
- Close to Port Macquarie but a village by the sea atmosphere

- Good access to Port Macquarie and other villages
- Here because away from built up Port area
- Tucked away from Port
- Proximity to services in Port Macquarie without the congestion
- Access to health and port Macquarie facilities Good services
- Proximity to major centres
- Close to cities
- Easy access to beach/bus
- New surf club facilities
- No high-rises
- Clean and tidy town

Business and growth

- Good business opportunity
- Potential for growth

What we would like to see

Planning and development

- Strategic development plan for PM-H Area
- Climate change policy
- Community vision
- Character connections
- Forward plan with community input
- Community influence on development
- Community plan from Council

- Planned and sustainable development
- Well planned development
- Better planning of development
- Constructive development
- Continued services
- Planned service for growth
- Better infrastructure to cope with growth
- No development
- No Development
- Wouldn't like it to change much at all. Just maintain what we have
- Would not like much to change other than the sewer outlet problems
- Buffer zone needed
- Gateway presentation
- Gateway at Houston Mitchell Drive
- Enhancement to Bonny Hills entry signage
- Extensive landscaping of key areas (like Port)
- Hide visual impact of industrial area near Lake Cathie Public School
- Ocean Drive upgraded and development screened
- Features of Bonny Hills developed for locals /tourists
- Advance with caution to maintain beauty
- No commercial buildings
- No major industries
- Keep building height restricted
- No high-rise
- No high rise

- No high-rise
- Keep building heights no more than three stories
- Make building blocks bigger and keep trees
- Infrastructure projects to manage long term population growth eg sewerage treatment works

Environment

- Fresh clean air
- Protect the environment
- Environmental protection
- Protection of the environment
- Preservation of the natural environment
- Maintain main areas of bushland and corridors
- Corridors – environmental
- Sound integration of development and bushland
- Better 'green' areas for humans and koalas
- More Bushland reserves
- Goat farm returned to the koalas and the people
- Goat area split half green space, half develop with large blocks
- Reinstall the Koala sanctuary

Community

- A strong caring and collaborative community
- Community events
- A town centre
- Village gathering space
- Shading in local parks
- Improved infrastructure – shops, cafes, sporting/physical fitness venues
- Prospects for young people – facilities and jobs
- More things and focus on those under 30yrs of age
- Playground areas for kids in new developments where they can play cricket, handball etc.
- Multi-purpose kids youth recreation centre, run (supervised) by locals and staff
- Full sized basketball court for kids (volleyballs, tricycles roadmap etc)
- Maintain surf club
- Build on facilities for locals i.e. surf club
- Shower facilities at Rainbow Beach and change rooms
- Outdoor exercise stations at beach
- Exercise area for public use
- Exercise equipment
- Paragliding related safety
- Bartlett's beach free from landing paragliders
- Bonny Hills artist mural
- Sculpture competition
- Graffiti strategies

Water

- Water quality – fresh and ocean
- Maintain the beach and surrounds to cope with the amount of people and water quality to swim in
- Sewerage

- Better sewage testings and upgrade
- Sewerage fixed
- Sewerage system to be upgraded
- Investigate ocean outfall water quality
- Water quality at Vinegar Beach
- Water pressure

Internet

- Better internet service

Transport

- Traffic management
- Speed limits
- Roads
- Road infrastructure to keep up with growing population
- Bypass
- Road Bypass
- Bypass of town
- Bypass for Bonny Hills
- Highway bypass for heavy trucks and buses
- No trucks with dog trailers – eg Quarry trucks
- Traffic diverted around town
- Dual lanes to Port Macquarie
- Roundabout at Ocean Drive and Beach – opposite Nursery
- Control developers with proper transporting

Pedestrian and Cycle Safety and Linkages

- Pedestrian safety
- Paths
- Footpaths
- Footpaths
- Footpaths
- Footpaths
- Pathways
- More footpaths
- Better Footpaths
- Footpaths everywhere
- Footpaths prioritised throughout the suburbs
- Footpaths connected to other footpaths
- Pathways for residences
- More walkways and cycle tracks
- Safe and linked roads footpaths and cycle ways
- Safe pathways and crossings for pedestrians
- Bicycle paths and walkways to Lake Cathie and North Haven
- Make bike tracks to Laurieton
- Bike paths between Bonny Hills and Laurieton
- Better footpaths and cycle paths between the villages
- Linking of small communities by walking /cycle paths
- Pathways well-constructed and linking Bonny Hills with Lake Cathie and North Haven
- Complete footpath between McIlray Drive to Panorama Dr (10-20m)

- Footpaths - Beach street
- Footpath on Beach St between garden centre and beach
- Footpaths – Ocean Drive and to the school
- Proper footpaths to pedestrian crossing on Ocean Drive
- Kerbing and guttering

Parking

- More parking at Rainbow Beach
- Better parking facilities at Rainbow Beach
- No paid parking

What are we concerned about?

- Cluster development
- Infrastructure capacity sewage
- Height levels

BHPA Vision

Consensus from the tables on the themes of the vision.

- Community Vision
 - Provision of infrastructure
 - Maintain amenity – trees, habitat, vegetation, lot sizes
 - Maintain village character – its why we are here
 - Transport linkages and options
 - Community facilities for young people

What we would like included in the 2018/19 Operational Plan

- Growth sustainable - corridor connectedness, transport linkages, infrastructure capacity/ area 14
- Growth so long as it is balanced and sustainable
- Jobs – State Government initiatives great to push people into regional NSW are supporting infrastructure initiatives particularly that support job generation – aged, support training, digitisation
- Industrial Plan
- Light industrial area
- Industrial development should be separate from residential development
- Environmental appeal
- Removal of trees is a real issue in developments
- Encourage people to grow native trees/plants eg. Council provide trees – what about a budget to provide trees to residents
- Consider buffer zone issue with development approvals
- Gateway presentation into Bonny Hills from Ghost Road
- Roundabout at Ghost Road – stockpile is an eyesore and should be removed
- Intersection of Houston Mitchell drive and the Highway
- Entry treatment to Bonny Hills (relocate gravel dump)

- Investigate alternative for gravel stockpile southern boundary – creating a safe pull off area, viewing area, signage/information
 - Town Character – gateway, Village atmosphere, exercise stations, green space, accessibility for safety fosters participation
 - Maintain Village character – interlink villages via pathways for tourism and lifestyle. Doesn't need to be concrete could be similar to Googic track – compacted gravel to add character. Council consider other options for financing the pathway costs
 - Village gathering area to create a village space for all generations
 - Shops are to be a meeting place/community space outdoor area suitable for some relax – plaza
 - Community facilities – community garden (there is not a centralised space for socialisation and community participation)
 - Ocean Drive assessment – November 2017 report
 - Implement action of the corridor place for Ocean Drive
 - Bypass
 - Pedestrian crossings
 - Safe pedestrian crossings of Ocean Drive
 - Pedestrian traffic management – for safety – pedestrian crossings to cross Ocean Drive – links into tourism – accessibility fosters participation. Ocean Drive from Ghost Road North
 - Footpaths generally
 - Ocean Drive footpaths and pathways
 - Rodley St to Shops – footpath
 - Footpath on Ocean Drive between Redland St and Beach St
 - Pedestrian connection between Caravan Park and Bartlett Beach
 - Complete all weather path to Spooners beach from caravan park boardwalk
 - Panorama drive to top shop – footpath linkage (and Rodley St)
-
- Put table drains in Ocean Drive near Top Shop
 - Sink hole repair in roads around stormwater pits
 - Water supply a potentially coming disaster
 - Water security
 - Address water quality in both creeks
 - Sewage
 - Comprehensive study /report on sewerage plant
 - Walkway wheelchair friendly Spooners to Skyline Drive/Grants Head
 - Can we reduce vehicle number on Spooners beach – people just park on the beach – not necessarily boat owners
 - Rainbow beach parking – management of grass hill
 - Acoustics at the surf club could be improved
 - Covered shelters in appropriate locations - eg playground at surf club
 - Outdoor exercise station in parks and beaches

JPD 17 January 2018
